

Sandi Russell (1946 – 2017) was an outstanding jazz singer, writer and educator. A native New Yorker of African American, Native American and European descent, she lived half her life in the United States and half in Britain, where she became a leading interpreter of African American culture. Sandi Russell: A Celebration offers an intimate and multi-faceted portrait of a much-loved woman who, through her music, writings, performances, teaching and friendships, moved and inspired many others. More than thirty contributors to this book, from both sides of the Atlantic, include friends from childhood, fellow musicians, authors, artists, poets and critics. Also gathered here are Sandi Russell's key essays and interviews, together with previously unpublished poems and song lyrics. The book is fully documented and illustrated with original artworks and over one hundred photographs.

SANDI RUSSELL: a celebration
